

Registered Nurse

About the Position:

Registered nurses are responsible for providing high quality holistic nursing care to oncology patients during their entire outpatient cancer care experience including: assessment, intervention, treatment coordination and administration, support and follow-up.

Registered nurses also play an important role in patient education throughout the cancer care continuum. They work with their care team members to support patients and families in their journey by counselling them regarding their diagnosis, treatment plan and self-care.

Patient safety is a critical aspect of quality health care. Registered nurses monitor patient reactions to treatment and changes in physical or mental status, and use independent judgment as to when to consult a physician.

They refer patients to other health care professionals in the Saskatchewan Cancer Agency or health authorities, such as social workers, dietitians, physiotherapy, home care and palliative care.

Registered nurses work in a variety of roles, including primary clinics, treatment administration, clinical trials, transplant, radiation therapy review, brachytherapy, referral centre, telephone triage, educator, clinical coordinator, and pain and symptom management coordinator.

Job Requirements:

Education

- Bachelor Degree/Diploma in Nursing
- Certification for Basic Life Saver (BLS)-C
- Oncology Nursing Certification is an asset

Credentials

- Must be eligible for licensure with the College of Registered Nurses of Saskatchewan (CRNS)

About Us

The Saskatchewan Cancer Agency is a provincial healthcare organization dedicated to providing cancer care for the people of Saskatchewan. Our compassionate and knowledgeable team provides leadership in health promotion, early detection, treatment and research for cancer.

We run two cancer centres, the Allan Blair Cancer Centre in Regina, and the Saskatoon Cancer Centre. We also provide services in rural communities in partnership with hospitals through the Community Oncology Program.

Our vision is a healthy population free from cancer, and our more than 900 dedicated employees work hard every day towards this vision.

For the past 90 years, our teams have been leading revolutionary technologies that help make our treatments as effective as possible to help our patients live longer, fuller lives.

In 2022, the Cancer Agency received an Exemplary Standing for safety and quality from Accreditation Canada, the highest achievement a health care organization can receive.

Note: All positions at the Saskatchewan Cancer Agency require a criminal record check.
