

# Three-Year Rolling Strategic Plan: 2021-2024

## Long-Term Goals

## Strategic Priorities

Year 1 2021-22	Year 2 2022-23	Year 3 2023-24
-------------------	-------------------	-------------------

### Clinical Management System (CMS)

#### Lead: Brenda Jameson

Continue implementing the CMS roadmap resulting in the paper patient chart no longer being relied on for care services: completing non-drug CPOE, integrating medications dispensed in BDM pharmacy system with the provincial Pharmacy Information Program, interfacing Medical Oncology and Radiation Oncology and scoping drug-CPOE.

### Models of Care

#### Disease Site Group Enhancement/Disease Site Clinics

##### Leads: Dr. Sunil Yadav and Dr. Haji Chalchal

As part of the model of care work, we will design, build, and implement disease site clinics while also furthering the development of disease site groups.

##### Virtual Care: Lead Denise Budz

As a model of care enabler, we will design and implement a virtual care program.

### Data Analytics Strategy

#### Lead: Riaz Alvi

Establish a strategy to manage Agency data (governance, storage, security, quality and use) to support data-driven activities including quality, outcome measurement, research, and decision support, and ensure that the Agency is in alignment with the health sector data use and analytics strategy.

## High Operational Priorities: 2021-22

<b>Breast Pathway</b>	<b>Lead: Linda Weir</b> Improve capacity and demand for screening mammography and move towards a provincial standard for delivery and reporting.
<b>Clinical Focus: Molecular Bio-Markers</b>	<b>Lead: Dr. Sunil Yadav</b> Establish a framework for reviewing and approving the use of molecular bio-markers.
<b>Cultural Responsiveness</b>	<b>Lead: Terry Lynn Zerff</b> Build a culturally responsive organizational strategy to be integrated throughout the work of the Agency.
<b>Earlier Palliative Integrated Care (EPIC)</b>	<b>Lead: Bryan Jorgensen</b> Create a palliative care community of practice to link palliative care services and provide a centralized access point for resources.
<b>Lung Cancer Screening</b>	<b>Lead: Karen Efthimiou</b> Establish a new provincial program for lung cancer screening.
<b>Research Support Program</b>	<b>Leads: Dr. Shahid Ahmed, Riaz Alvi, Lynn Dwernychuk</b> Build a research support program and structure that supports and elevates cancer research at the SCA and helps to obtain sustainable funding.
<b>Saskatoon Patient Lodge</b>	<b>Lead: Bryan Jorgensen and Ryan Cockwill</b> Sustaining patient lodge services in Saskatoon.
<b>SCA Re-Branding</b>	<b>Lead: Lisa Adam</b> Finalize the re-brand to increase awareness of the SCA as an independent health organization that manages cancer treatment, early detection, prevention and research for the province.
